

Total Erazе Ultra Clear | 30.000N

Total Erazе Ultra Clear is a high-gloss, optically clear PET whiteboard film, perfect for application on glass surfaces. This PVC-free film is also ideal for creating custom whiteboards by laminating it onto printed vinyls, walls, or cardboard. For best results, apply to smooth, dry, clean surfaces. Allow 4 hours for the adhesive to cure before rolling or transporting. A laminator is recommended. For optimal results, use our 97.011 Erazе Marker Black or consult the Total Erazе marker compatibility list.

FACE FILM

PET, gloss clear

Thickness (µm)	60
----------------	----

ADHESIVE

Clear solvent-based acrylic, permanent

Thickness (µm)	20
Adhesion to steel	FINAT FTM 1
20 minutes (180°) N/25mm	10
24 hours (180°) N/25mm	15

RELEASE LINER

Clear PET liner

Thickness (µm)	40
----------------	----

PRODUCT APPLICATION

Application method	Wet & dry
Application temperature (°C)	10 to 30
Service temperature (°C)	-45 to 82

DURABILITY

Shelf life (months)	12
Outdoor durability (years)	Vertical exposure, Mid-EU climate

ROLL SIZES

1350mm x 50m

PRINTING METHOD

UV

Fourbases BV guarantees the material for twelve months from the date of final invoice. The shelf life of our material depends on storage conditions. The end user should store the material in the original boxes or in equivalent boxes, away from direct sunlight, at a temperature of 21°C and 50% relative humidity. Fourbases BV guarantees that the products are free from defects in workmanship or defects in iSee2 material, provided they are stored properly. At its sole discretion, Fourbases BV may either: (1) replace all or part of the materials, or (2) issue a credit note for the value of the defective portion. All quoted data values are typical and should not be used as a basis to consider the product defective if measured values differ.
