Avian Stripe | 33.023N

An optically clear polyester bird protection film with a subtle etched double horizontal line pattern that is visible to birds while remaining discreet to the human eye. A scratch resistant coating provides lasting durability while helping hold shattered glass together in the event of impact for added safety.

FACE FILM

Polyester, clear with a pattern of 3mm double horizontal stripes and 25mm clear spacing (pattern runs across the width of the film)

Thickness (µm)	100	

ADHESIVE

Clear acrylic, removable

Thickness (µm)	50	

RELEASE LINER

Clear siliconized synthetic liner

Thickness (µm)	25	

PRODUCT APPLICATION

Application method	Wet	
Application temperature (°C)	10 to 30	

DURABILITY

Shelf life (months)	24	
Outdoor durability (years)	7	Vertical exposure, Mid-EU climate

ROLL SIZES

1470mm x 30m

INSTALLATION

Edge sealing recommended to extend life, but not required.

Recommended for application to exterior glass only.

Fourbases BV guarantees the material for twelve months from the date of final invoice. The shelf life of our material depends on storage conditions. The end user should store the material in the original boxes or in equivalent boxes, away from direct sunlight, at a temperature of 21°C and 50% relative humidity. Fourbases BV guarantees that the products are free from defects in workmanship or defects in iSee2 material, provided they are stored properly. At its sole discretion, Fourbases BV may either: (1) replace all or part of the materials, or (2) issue a credit note for the value of the defective portion. All quoted data values are typical and should not be used as a basis to consider the product defective if measured values differ.
